SCHOLARSHIP RECIPIENTS GRADUATE

Congratulations to four of our scholarship programme recipients who have successfully graduated from their higher institutions.

Benita Boorman earned a B.Ed in Senior and FET Phase from North-West University, Omphile Matebesi obtained a Bachelor of Social Science in Industrial Sociology and Labour Studies from the University of Pretoria, Kylin Mienies graduated with a B.Ed in Intermediate Phase from Stellenbosch University, and Zandre Olyn also completed a B.Ed in Senior and FET Phase at North-West University.

"I'd like to sincerely thank REISA for the incredible support through the bursary programme. Your help played a huge role in my academic journey and overall success. I'm proud to share that I secured employment even before graduating - something that wouldn't have been possible without the financial support and encouragement I received from REISA." - Benita Boorman.

BOY EFFECT CAMP A SUCCESS

We proudly partnered with Boipelo Resources to host a camp under the theme 'Real Strength Comes from Within', aimed at high school boys.

Forty boys from Langberg High School, Gamagara High School and Sishen Intermediate Mining School attended the camp, which focused on resilience, leadership, discipline, and using strength for good.

Facilitated by key stakeholders, the camp took place last year and encouraged teamwork and positive peer influence, leaving a lasting impression on all participants.

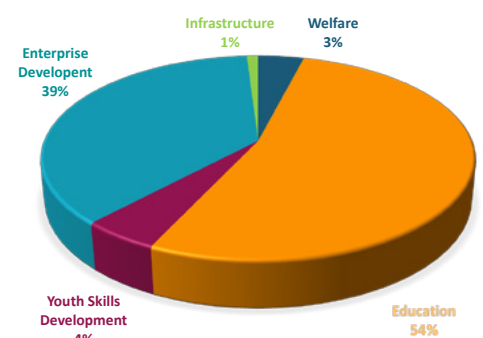

IKAGENG ELDERLY CLUB DONATION HAND OVER

As part of our Hearts and Minds Programme, we handed over sporting and needlework items to the Ikageng Elderly Club in Mapoteng.

These supplies will support the club's active participation in the Department of Social Development's annual Golden Games, which promotes wellness among older persons through various sports and activities.
